“...These have not been easy projects, but we are able to work together every day in a true team environment.

Life is just much easier that way.”

**Bill Faust,
Administrator,
Floyd County
Memorial Hospital**

Accord Architecture and Henkel Construction Companies are teaming again at Floyd County Memorial Hospital in Charles City, Iowa. Designs are complete and construction is underway to renovate and upgrade the hospital’s entire second floor. The project includes converting all patient rooms from semi-private to private, creating a new and very family friendly waiting area complete with a fireplace, all new wood cabinetry and casework, renovating and relocating the nurse’s station area, and a complete renovation of the Obstetrics department.

These are both new projects with previously satisfied customers. Accord and Henkel have been working with Floyd County Memorial Hospital since 1997 and have previously completed projects including the movement and renovation of six different departments, complete renovation of three operating rooms including associated support and recovery areas, and a new physical therapy installation. Bill Faust, Administrator of Floyd County Memorial Hospital said, “We have been very pleased with Accord Architecture’s design and planning work and with Henkel Construction’s quality and level of service during planning, budgeting, and construction. These have not been easy projects, but we are able to work together every day in a true team environment. Life is just much easier that way.”

At Regional Health Services of Howard County in Cresco, Iowa, Accord has completed two renovation projects, including a CT scan area renovation and new scanner installation. Design studies, conceptual design, and budgeting are currently underway to renovate a portion of the x-ray department as well.

Henkel Construction Company is a full service General Contractor and Construction Manager based in Mason City, Iowa.

Henkel builds high quality structures for commercial, institutional, heavy-highway and industrial clients throughout the Upper Midwest and, for some clients, nationwide.
